INSTITUTE OF ARCTIC BIOLOGY A Department Level Human Resource Solution

BACKGROUND

UAF departments have experiendeseveral years of across the board reductions to their Fund 1 budgets. The impacts of these cuts have been felt mostly in the administrative support areas. With additional across the board reductions anticipated as part of the BOR s compact plan with the provide the provided as part of the BOR s compact plan with the provided the provi again look tofind cost savings and efficiencies in their already depleted departifies the partment level shared services proposal is a potential model for departments to partner with outdreamsstaff reduction in administrative support functions.

PROPOSAL

IAB is proposing to create a shared/collaborative HR/Payusiness model to process department level human resource administrative and transactional taskspartments proposed to be served:

Biology & Wildlife Identified as a department to be served because 34 out of 38 faculty have a joint appointment between IAB and Biology & Wildlife. Providing all HR functions throughout the academic year and

Tech/Travel Coordinator, etc.) that make it difficult to be subject matter experts in all areas of responsibility. The ability to partner with IAB HR will help partner departments to focus on other high priority support functions such as PIO, student recruitment, fiscal management, proposal development, and others.

Estimate Cost Savings

Estimated costs savings for collaborating departments will depend on the level of service provided by the IAB HR office. For shortterm agreements such as filling in during extended absenceSM(L), real dollars savings will depend on the difference between the hourly rates of the HR Coordinators well as the number of work request received. t sharder to quantify the savings to a depart for maintaining continuit fy HR processes without any gaps in service. For long-term agreements with partners to provide the full range of HR services, the savings is anticipated to the at minimum a .FTE. At a grade 77 step 12 that equators \$37,238 avings per year.

Funding

IAB HR/Payroll will be appropriately staffed, funded and support the bystitute of Arctic Biology

IAB HR/Payroll shared services is funded by each partner department based on the processing volume for their employees.

It s recommended that payment is made by cost transfer instead of direct charging labor to partner departments.

Proof of Concept

Since December 2019, IAB HR has successfully provided departmental HR support for CFOS after the departure of their Fairbanks based HR Coordinator. IAB HR has received positive feedback from CFOS regarding the responsiveness and accuracy of the services provieled.on-going full HR support, there is a potential savings \$\$ (.5 FTE) for each partner department. In addition to the increase functionality threader having to train a new HR Coordinator which could take six months to a year.

SWOT Analysis

Strength:

Department level solution to help address ATB reductions Potential cost savings for partner departments Accountability by using a Service Level Agreement No requirement UAF Central Administration to reallo**furtes** Maintain direct, customer focused services

Weakness:

Solution isnotinitiallyscalable beyond the departments proposed. Additional half otimed FTE may be required if more than 1 or two partner departments prviced.

Loss of supervisgrcontrolfor departments being serviced

Opportunities:

Department level solution can be duplicated by other departments for various administrative functions Encourages the sharing of best pircest between departments
