there may (will?) be trying and frustrating periods involved, so please be patient. . Course materials will be transmitted using the Blackboard system (<a href="http://classes.uaf.edu/">http://classes.uaf.edu/</a>) and assignments will be turned in using email.

Ten short "pop" quizzes (10 points each) will be given, unannounced, during the term and two scheduled 1-hour exams (50 points each) will be given during the term. A required 2-hour final exam (200 points) will be given at the end of the term.

The Watershed Assessment Team (WAT) Project (200 points) consists of the following components:

Completion and submission of nine GIS exercises\* (90 points) Individual assignment (fill role as facilitator/reporter for WAT meetings) (10 points)

Contributions to watershed assessment report (100 points)

\* Computers with GIS software are available in O'Neill 359 and at any of the OIT computer labs in MBS, Bunnell (the Nook), or the library (Rasmussen 404). GIS software is also provided to students for use on suitable personal computers.

The instructor will award 40 points based on class participation. Your attendance at all lectures is expected and would be a great ego boost. So remember,
