Report Comments

The screenshot displays a report interface. At the top, there is a header with a blue background. Below the header, the main content area is divided into several sections. A prominent section is titled "Report Comments" and contains the following text:

This report aggregates the scale responses in the following items. The frequency distributions that show the percentage of agreement (5: Strongly Agree, 4: Agree, 3: Neutral, 2: Disagree, 1: Strongly Disagree) are shown below. As a general rule of thumb, items that show above 75% agreement suggests that students have a positive experience with that particular item/s. Items in the 60-75% agreement range warrant some reflection on how students' experience can be improved. Items with below 60% agreement signal that further investigation and actions to address the issue/s are required. Items with a percentage of agreement of 60% or less are highlighted in red.

Below the text, there is a table with the following columns: Course, Standard, Question, and Response. The table contains several rows of data, with some cells highlighted in red. The "blue" logo is visible in the bottom right corner of the interface.
